Increase interaction with students, Professors must be on time which is very necessary thing

First teachers look every student in there studies... overall everything is good .. outdoor games facilities to be provided every student...

It is good

1. More participation in extracurricular activities Should be promoted
2. Learning beyond the class
3. Should focus on fun and engaging space of learning

I feel, if we could get more ppt and research point of view (insights) on different texts, it would have been amazing.

Sorry I have no idea.

By using visual media and graphics can arouse students desire for study.

My teacher and there teaching style is very well

Teacher's are explaining concepts with generalized and easy to understand examples,Use of ICT in teaching learning process develops creativity and behaviour of keen to know , understand through visual aids .

Use better graphics and video media to engage students well.

Raksha Vishwakarma

We want obe exam and hybrid class as 85% of the syllabus has been completed online

In every thing my teacher's are best

Always contact the student of principal
Visiting the holy place
That's it.....

I think all are going very well ,so no suggestions in this semester.

The teacher's are good, but some staff members are so rude ...

We want hybrid class and OBE exam

Everything is perfect in AMPGC .It doesn't need any suggestions from my side. AMPGC is the best college for girls . I love it's safe environment for girls.

I feel very grateful to get such eminent professors who are trying hard during this digital-classroom process to interact with their students, clarifying all our queries, motivating us not merely for our studies but also to do good in our other spectrums of life.

Well, in my perspective this thing will blossom much more once we'll switch to the physical classroom process. Just hoping for this situation to become normal so that we students can visit our new institution and meet our professors soon.

No suggestions required
Ours teacher are giving their best

Online classes should be held with more attention and teachers should try their best to help students from English medium either of blaming them what I observed was being done.

Excellent

I am satisfied

Y n n u

Regular offline classes, more doubt classes, proper time schedule as many classes clash at the same time.

Nothing such.

Use more affective methods of teaching

There should be some extra curriculum activities

The teachers of our college read very well to the students.Whatever little problems are there, it will go away as soon as the offline classes start.It is just a request to all the teachers that they should continue the offline classes now.🙏And whatever 1 to 2 students are saying that there should be online classes, all the teachers should motivate them together that why offline classes are necessary.😊

Thank you
Respected Sir /Ma'am
Learning experience is very good
And teaching methods is vary easy

Use better graphics and visual media to engage students well...Try to reach every student's and ask for their doubts... Make teaching a two way interaction

Classes should continue in hybrid mode with obo examination for this very semester and institution should be more quick enough to bring the notice of mode of examination, because all they are doing right now in confusing students to another next level

It's very well...

I have no suggestions

All right👏

Gud

Being an ICSE english medium student, I hope the teachers could teach in english too

Need offline classes for better learning

- 2- Give advice or discuss more about job opportunities and more field exploration in our subject.
- 3- Institute should take active interest in internship and student exchange program.
