Everything is good no need to change

1. Teacher need to take class properly and on time. Our ancient history, european history, macroeconomic and political science (ancillary) is not even half way complete and our exam is in 10 days.... now we have to study on our own rest of the course in less then 10 days. Teachers need to manage time properly.

2. Need to use projector for better teaching and learning.
3. Need some extra peaceful area with benches and chair for studying in break time, other than library.

Use projectors, ask the students interest and guide them, understand her/his problems instead of scolding and give them time.

All teachers are experienced

First is... Do Free Bus available for students who live minimum 1 km distance to our college

-

1. We need teacher who can teach us in English as well.
2. There are very few books in library and one can barely find books in English.
3. We need some clubs and societies in the college as well, as there is little to no scope for any extra curricular activities other than sports.

Better education quality.

Describe topic deeply.
Provide more teaching learning method.
Motivate students .

२) सारी कक्षाएं प्रतिदिन नियमित रूप से चलाई जाए।
३)

1) Books should be updated in Library
2) Washroom of Faculty of Education mostly found closed, please take necessary steps
3) Music system should be controlled during any event, loud music distracts other faculty students from lectures

everything is good

More communicative
Subject teaching should be more clear and practical

Perfect teaching

In the any institution , we come to earn education with equal feeling like a family, free from religion, caste etc. Therefore, the process of imparting education in institutions should also be such that it does not hurt the sentiments of any particular religion or caste.

Teaching -learning experience in my institution very well.

Sansthan me shikshan adhigam ki gunvata ko bdaava de...

Teachers should teach in hinglish so that students of both languages can understand.
Teachers should be fair and active in the class and tell the students about their weaknesses and strength.

Teachers should be practical and they should also teach with multiple examples.

More elaboration , more care about what the problems we are facing abt the subject which are not from our background, cross questioning.

Literally I'm satisfied with my institution.

I'm satisfied

Their behaviour should be polite towards the students.
They must encourage us.
They should understand our problems.

Unique example ,ask questions from students , friendly with students

Use of ICT tools, Necessary follow-up,

1. Increase in cooperation between teacher & student
2. Improvement in teaching learning process
3. Excite students to learn more

All the professors of history are very friendly, they teach thoroughly and they always use to talk politely 

Try to focus on each and every students

No comment

There must be no parking fee for all college students as we daily pay 10 rupees only for 2-3 hours of Parking. We students deserve no parking fee specially for Girls.

Proper division of students on language basis, Maximum use of projectors.

Should make students to participate in sports too. NSS should also be present for masters. And for library issuing date should be increased from 7 days to 6 month atleast.

I have no any idea

Respected Madam,

As per my observation as I and my other mates are facing issues with the communication language of the faculty, during the filling of application form it was asked in form for Hindi or English medium of education, for children who chose English, were never given that mode of education, teachers of our dept. teach us in deep and tough Hindi language so it's pretty much difficult to understand it, as it's pure form of Hindi.

And when we are unable to understand what our professors are speaking we tend to lose interest in making notes, this is my one and only humble request to make separate classes and professors for both the language.

Thankyou

1. More of digital learning methods could be promoted

2. More interaction with different departments should be encouraged to inculcate the spirit of college learning and exposure

3. More emphasis on communication as most of the times students are not aware of the various academic or non-academic events happening in various parts of the college.

Classes have to be in digital form, classes should be in regular form and teacher's have to interact with every student.

Suggest book, presentation,

I have no suggestions.all is well.

Looking forward for more learning
